Objective

To secure a challenging **Software Engineer** position with a focus on **Web Development** in a dynamic and innovative organization. Eager to utilize my expertise in **front-end technologies**, **problem-solving skills**, and passion for creating **scalable** and **user-friendly** web applications to drive business growth and enhance user experiences.

Experience

ViexelMedia23 | Gaza, Palestine **2021 – 2023**

- Gained hands-on experience in **web development** by working on both **frontend** and **backend** projects.
- Developed and maintained **responsive web applications** using **React**, **Tailwind CSS**, and **JavaScript**.
- Collaborated with a team of developers to integrate **REST APIs** and ensure smooth data flow between the server and client.
- Assisted in **optimizing website performance** by reducing load times and improving overall user experience.
- Worked on **bug fixing** and enhancing website functionalities based on client feedback and user testing.
- Contributed to **version control** using **Git** and **GitHub** to manage project workflows efficiently.
- Participated in regular **team meetings** and collaborated with cross-functional teams to deliver high-quality software solutions on time.

Education

University of Palestine | Gaza, Palestine

2020 – Present

- Pursuing a degree in **Software Engineering** with a focus on **Artificial Intelligence** and **Web Development**.
 - Gaining hands-on experience in programming languages such as **Java**, **React**, **Tailwind CSS**, and **PHP**.
 - Actively participating in academic projects and group collaborations, enhancing **problem-solving** and **teamwork** skills.
 - Developing a solid foundation in **software development principles** and **data structures**.
 - Involved in research related to **AI** applications and their integration into real-world solutions.
 - Preparing for a career in **full-stack development** and **AI-driven technologies**.
-

Skills & abilities
